

Clicking on a node 3

Browser bar

Note:

There are different ways to implement this feature to address screen-cluttering.

Pros:

- * Partially already implemented
- * Modern UI (iOS, android, etc)
- * ~~Only supports a limited amount of attributes~~
- * Keeps user focus

Cons:

- * Difficult to implement
- * ~~Difficult~~
- * Might clutter screen
- * Only scales to a limited amount of attributes
